READY FOR A NEW AI ORDER?

China’s Moonshot AI just dropped Kimi K2 Thinking

Ryan DSouza

1 Beats GPT-5 & Claude 4.5

44.9 on Humanity’s Last Exam, 60.2 on BrowseComp — real reasoning, not rehearsed text.

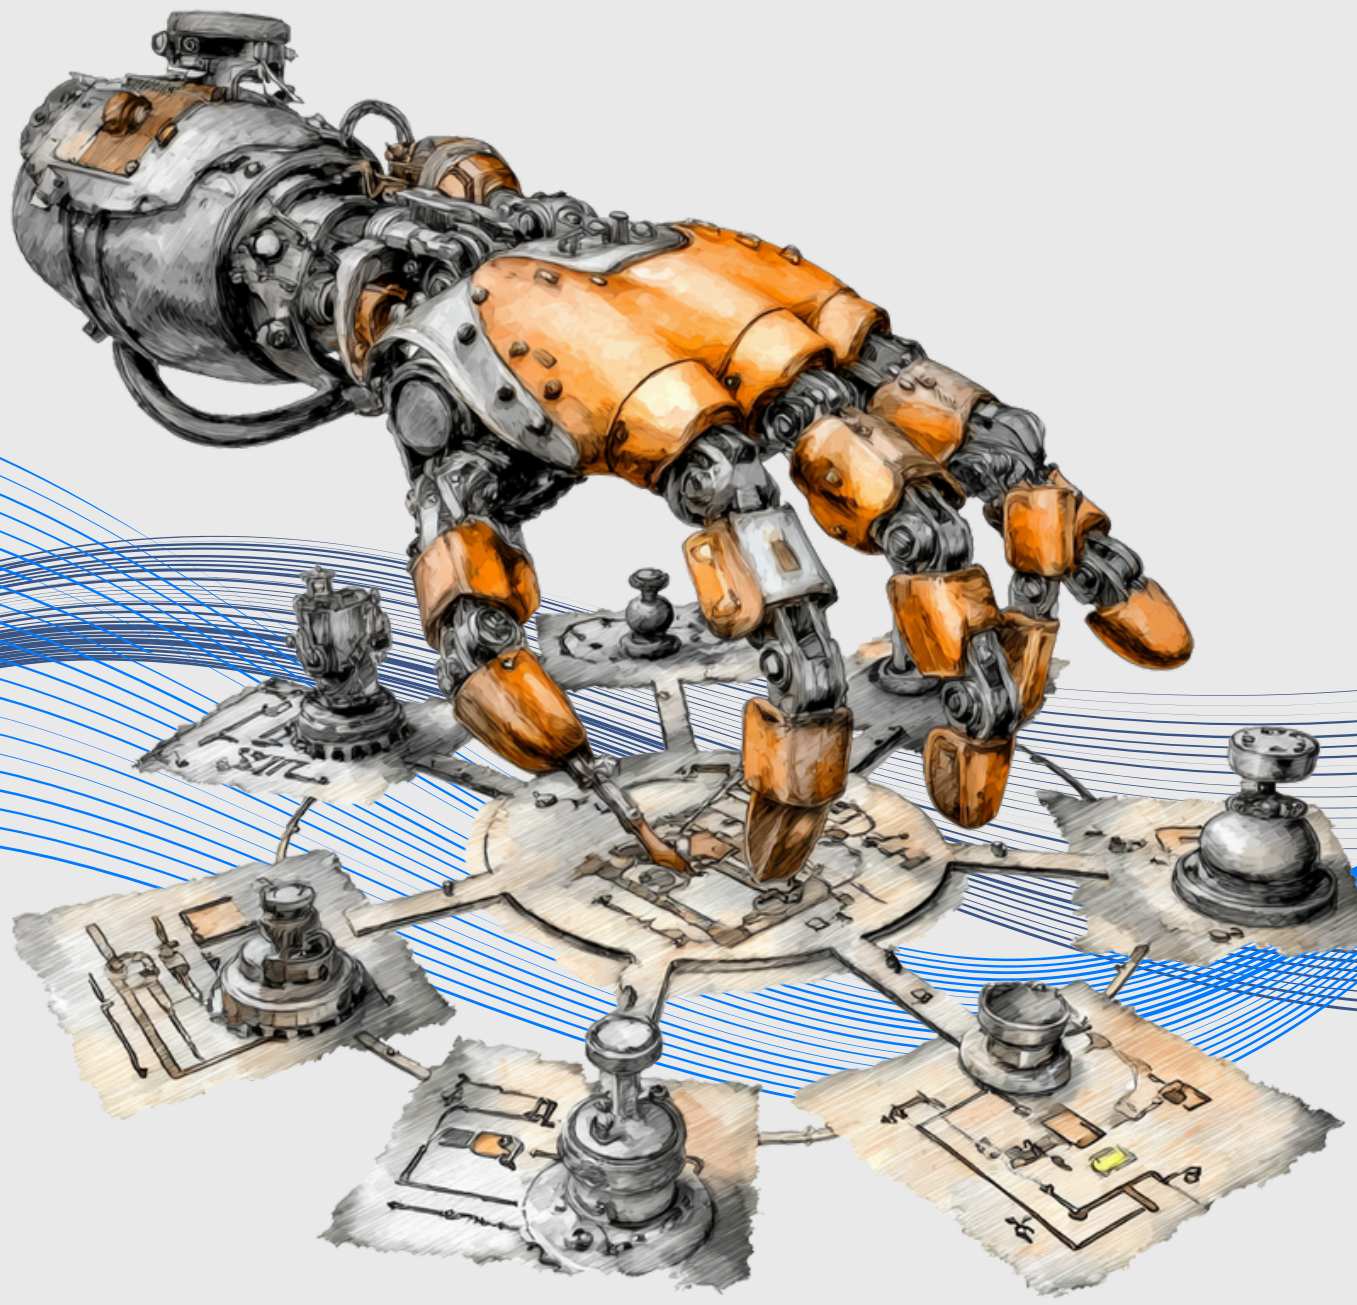

- Action: Re-evaluate your stack against open-source reality.

2 Agentic Intelligence

Executes 200–300 tool calls with coherent multi-step planning.

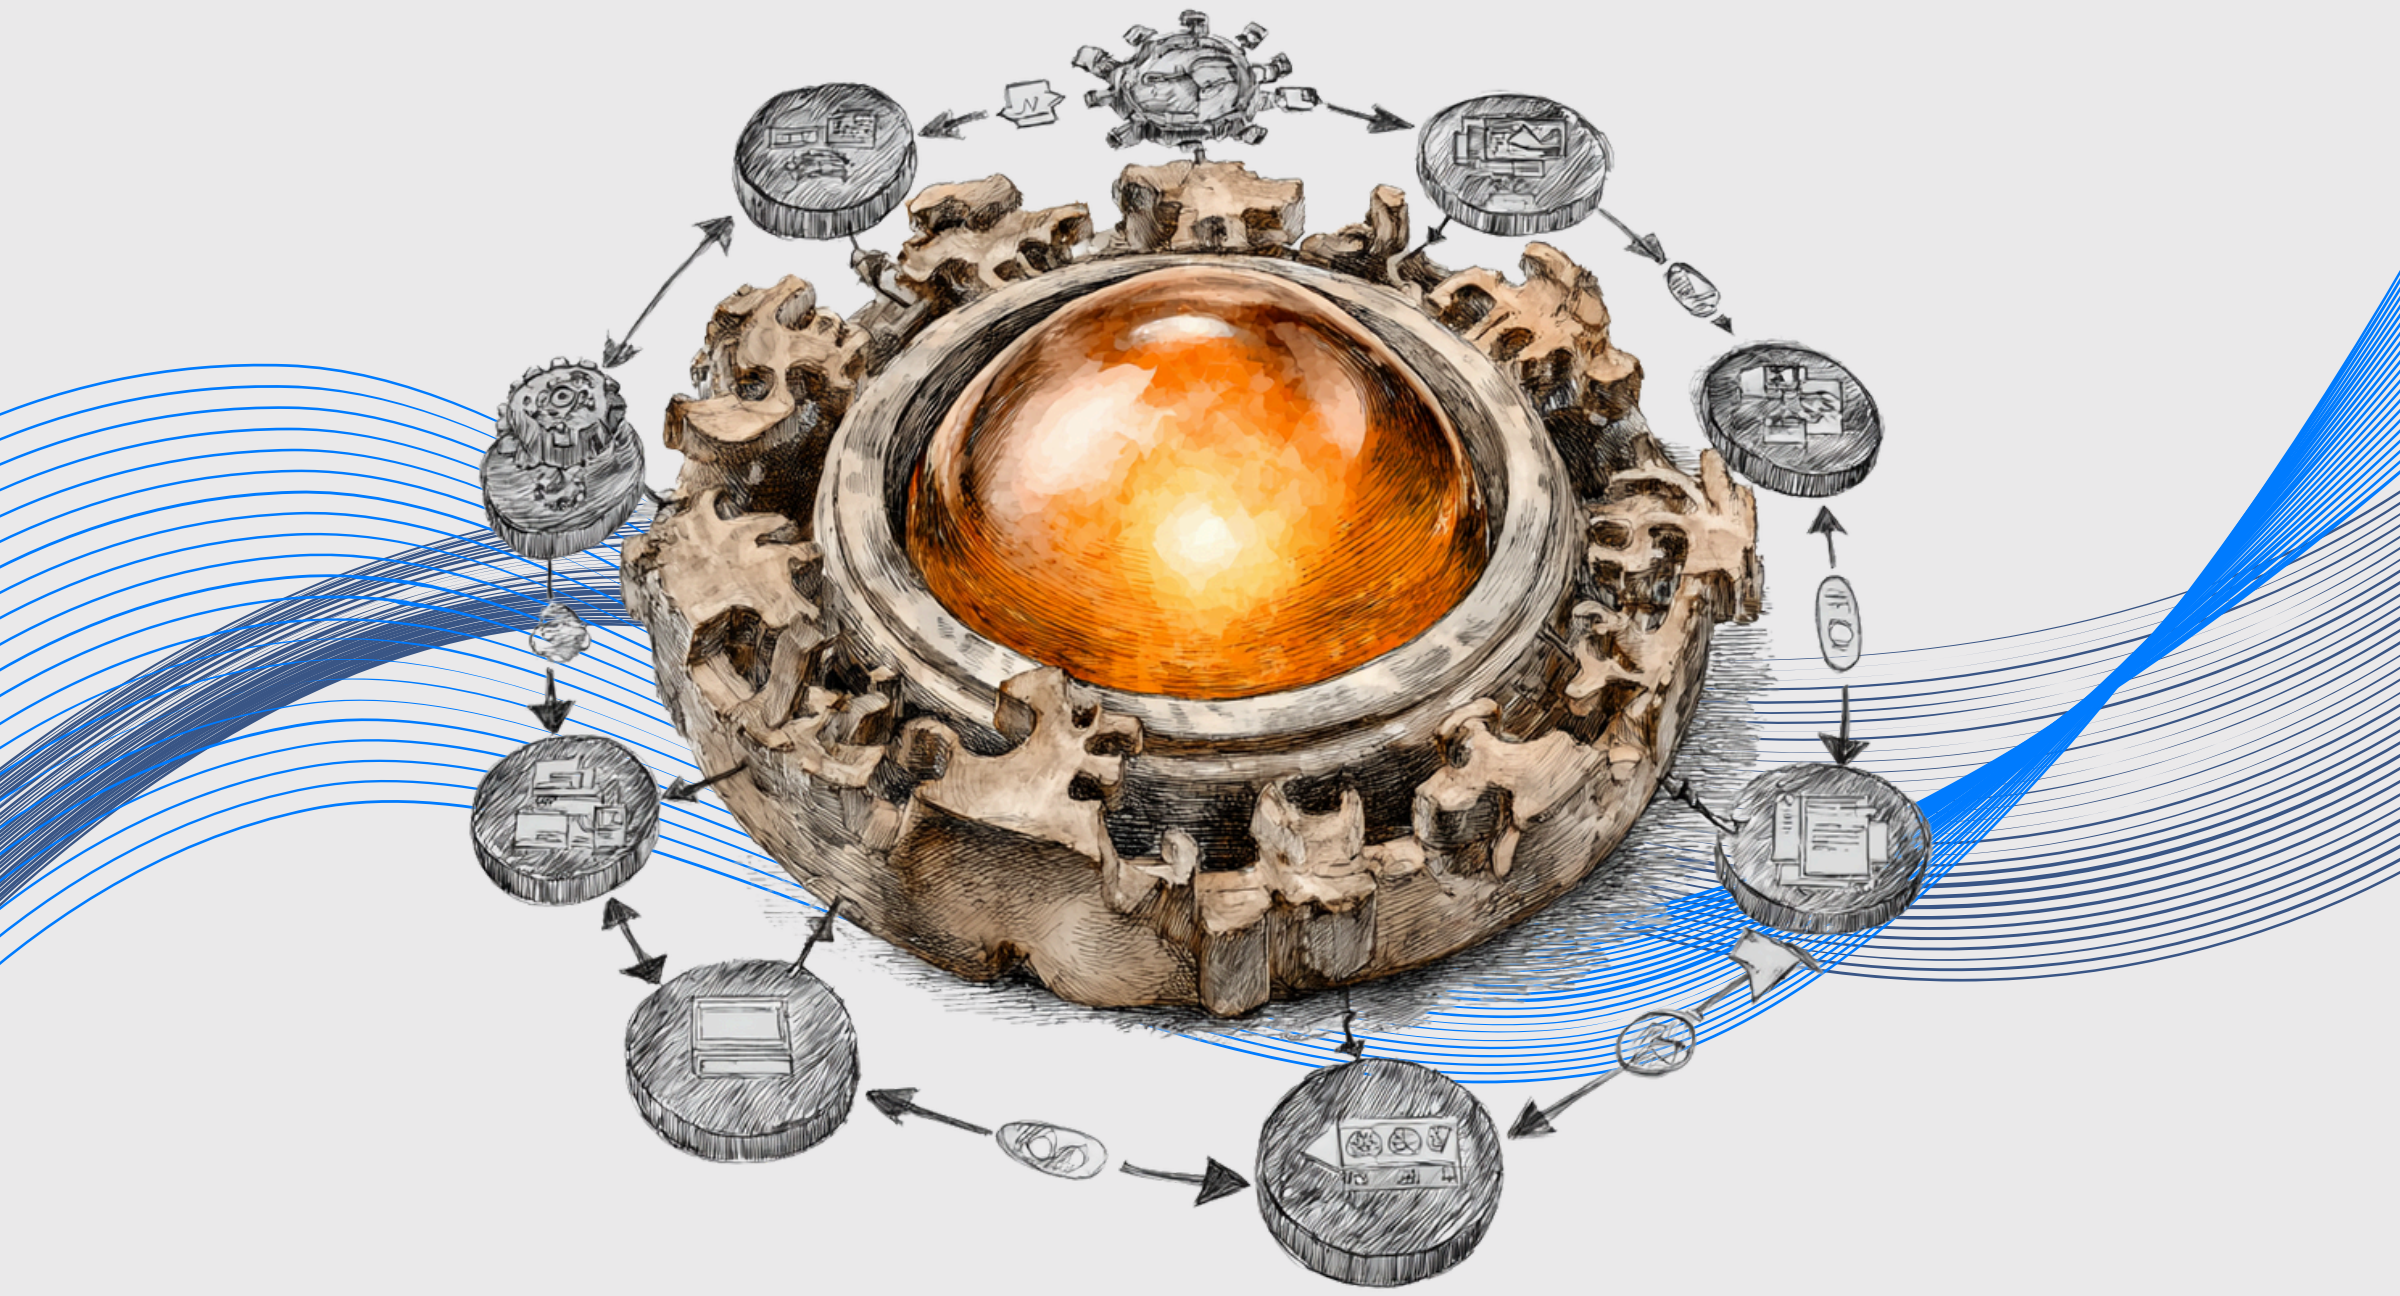

- Action: Build AI that thinks, not just responds.

3 Transparent & Trustworthy

Reveals every reasoning step via reasoning_content.

- Action: Audit your AI’s mind — no more black boxes.

4 Massive, Yet Efficient

1T MoE, 32B active params, INT4 inference, 256K context.

- Action: Scale reasoning power without scaling cost.

5 Truly Open

Open weights, permissive licence, and affordable API.

- Action: Fork it. Fine-tune it. Own your future.

IS OPEN-SOURCE NOW LEADING FRONTIER AI?

Repost to inspire your network!
