10 Powerful AI & LLM APIs

API	WHAT IT'S FOR
● OpenAI API	ChatGPT apps, AI agents, RAG, code generation
● Google Gemini API	Multimodal AI (text, image, video), reasoning
● Anthropic Claude API	Long-context analysis, document processing
● Cohere API	Embeddings, semantic search, RAG
● Mistral AI API	Open-weight LLMs, enterprise AI
● Groq API	Ultra-fast inference, real-time AI apps
● Hugging Face Inference API	Access thousands of open-source models
● Perplexity API	AI search engine, web-grounded answers
● DeepSeek API	Coding, reasoning, cost-effective AI applications
● xAI Grok API	Reasoning, agentic workflows, real-time information

Hidden Gem Research APIs

API	WHAT MAKES IT SPECIAL
● OpenAlex API	Alternative to Semantic Scholar, 250M+ scholarly works
● Lens.org API	Research papers + patents together
● Europe PMC API	Biomedical papers with richer metadata than PubMed
● ORCID API	Researcher profiles and publication networks
● Dimensions API	Papers, grants, patents, clinical trials

TIP Great for building literature-review or citation-mapping tools.

Unique Data APIs

API	WHAT MAKES IT SPECIAL
Our World In Data API	Global development, economics, health
GDELT API	Tracks news from around the world in real time
FRED API	Federal Reserve economic data
OpenAQ API	Global air quality data
Global Fishing Watch API	Satellite-tracked fishing activity

TIP Combine these for unusual, attention-grabbing data visualizations.

AI-Specific APIs

API	WHAT MAKES IT SPECIAL
Jina AI Reader API	Turn any webpage into LLM-ready text
Firecrawl API	AI-friendly website crawling
Exa API	Search engine built specifically for AI agents
Tavily API	AI search and retrieval
E2B API	Secure cloud sandboxes for AI agents

TIP The backbone stack for most modern AI agent products.

Finance APIs Most People Don't Know

API	WHAT MAKES IT SPECIAL
Financial Modeling Prep API	Detailed company fundamentals
Tiingo API	Institutional-grade market data
Intrinio API	Financial analytics and fundamentals
SEC EDGAR API	Direct access to company filings
OpenBB API	Alternative investment and financial research

TIP Pair with an LLM to summarize filings or earnings automatically.

Alternative Social APIs

API	WHAT MAKES IT SPECIAL
Hacker News API	Startup and engineering trends
Discord API	Community analytics
Mastodon API	Decentralized social network data
Product Hunt API	Startup launches and trends
GitHub API	Developer ecosystem analytics

TIP Useful for trend-tracking dashboards beyond mainstream social data.

Space & Science APIs

API	WHAT MAKES IT SPECIAL
• ESA API	European Space Agency datasets
• SpaceX API	Launches, rockets, missions
• Astro API	Astronauts currently in space
• USGS Earthquake API	Real-time earthquake monitoring
• NOAA API	Climate and weather datasets

TIP Fun, visual data — great for portfolio projects that stand out.

Geospatial APIs

API	WHAT MAKES IT SPECIAL
 Geoapify API	Maps, geocoding, routing
 GeoDB Cities API	Global city information
 OpenCage API	Reverse geocoding
 TomTom API	Traffic and navigation
 HERE API	Enterprise mapping and logistics

TIP Combine with weather or finance data for location-aware apps.

APIs That Are Gold for AI Agent Projects

What top AI startups are increasingly using:

1. Exa API

3. Firecrawl API

5. E2B API

7. GDELT API

9. GitHub API

2. Tavily API

4. Jina AI Reader API

6. OpenAlex API

8. SEC EDGAR API

10. SpaceX API
