

DATA INTERVIEW PREP

Most data interview prep is **scattered PDFs** and random YouTube playlists.

I built the thing I wish I had. ↓

Why most candidates **freeze** in interviews

40 hours of tutorials watched

...but you can't answer “explain a window function” out loud.

Questions buried everywhere

Scattered across 12 browser tabs and 3 Telegram groups.

No reality check

No way to know if your answer is actually interview-ready.

Knowing $\neq$ being able to explain under pressure.

One bundle. **Every** data interview question that matters.

DataInterVu — a structured question bank with vetted written answers, quizzes, and progress tracking. Built for **Data Analytics**, **Data Science & Data Engineering** interviews.
