

git

GitHub

Introduction

- **GitHub:** GitHub is a platform for managing and sharing code with version control, allowing developers to collaborate on projects.
- **GitHub - Talent Acquisition:** GitHub helps recruiters find and assess developers by reviewing their code, project contributions, and collaboration skills.
- **Example:**
 - Imagine you're a recruiter looking for a skilled developer. You find a GitHub profile like this:
 - In the profile:
 - **Repositories:** Show the developer's projects and code quality.
 - **Contributions:** Highlight their activity, such as commits and pull requests.
 - **Activity Feed:** Displays collaboration and interaction with other developers.
 - By examining this profile, you can gauge the candidate's skills and experience effectively.

"public activity"-tab activity

A screenshot of a Google search results page. The search bar at the top contains the text "site:github.com Python 'Public activity'". Below the search bar, there are tabs for "All", "Images", "Videos", "Shopping", "News", "Books", "Web", and "More". The "All" tab is selected. The search results show three entries, each for a GitHub profile. The first entry is for "Activity · djpine/python-scieng-public" with a description: "Python programs and data files for 'Introduction to Python for Science and Engineering' by David J. Pine - Activity · djpine/python-scieng-public." The second entry is for "Activity · yellowdog/platform-demos-python-public" with a description: "YellowDog Platform demos using the Python SDK. Contribute to yellowdog/platform-demos-python-public development by creating an account on GitHub." The third entry is for "Activity · icta-tecaji/python-data-analysis-public" with a description: "Search code, repositories, users, issues, pull requests... · Provide feedback · Saved searches · Activity." Each entry includes a GitHub logo and a link to the profile page.
